

NEW PRODUCT RELEASE: VTech TRP-Series Vacuum Pumps

If you are looking for an alternative to the leading high vacuum pump brands on the market, consider the new TRP-Series vane pumps by VTech. You will like our prices and availability, while enjoying top industry standard technical specifications.

In the words of VTech's Technical Director Bill Wright, Jr:

"We have been using the TRP vacuum pumps for over one year in our leak testing and refrigerant charging equipment with very good results. As equipment makers, we can't afford to take chances on the quality and reliability of the components we use, but at the same time we were not completely satisfied with the prices and lead times of other pumps on the market. In the end, we decided it was time to make a change and we're happy we did!"

VTech TRP Vacuum Pump

The TRP pumps are available in multiple sizes, ranging from 3.8 to 57 cfm. They feature excellent ultimate vacuum, low noise and include a built-in anti-suck-back valve, preventing the pump oil from rising back into the vacuum circuit.

The VTech TRP-Series pumps have the following technical data:

Model No.	CFM Rating*	m ³ /h Rating*	Ultimate Vacuum w/out Gas Ballast (Torr)	Ultimate Vacuum with Gas Ballast (Torr)
TRP6	3.8	6.0	5×10^{-4}	5×10^{-3}
TRP12	7.6	12.0		
TRP24	15.2	24.0		
TRP36	22.8	36.0		
TRP48	30.5	48.0		
TRP60	38.0	60.0		
TRP90	57.1	90.0		
*Free Air Displacement				

Upgrade the pump in your current leak testing and charging equipment or add pre-evacuation capacity to your production line. A full line of accessories are also available, including oil mist filters, connection hardware and hoses, gauges and gauge controllers.
